1. This Office action is in response to amendment filed 27 February 2006, which papers have been placed of record in the file.

2. An informal examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Applicant indicated making this amendment to the title, but the examiner did not find said amendment in the file and so is making the title change of record by informal examiner's amendment herein.

3. The application has been amended as follows:

In the Title:

Replace the title with "Computer System and Method to Control Noise of a Hard Disk Drive".

4. Claims 1, 3-5, 9, 11, and 13-27 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

Claims 1, 9, 11, and 19 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose a hard disk drive driving part and method for driving a hard disk drive comprising controlling the disk drive during a lower noise mode to rotate at a data processing speed which is faster than the minimum

Art Unit: 2651

speed and slower than the maximum speed, on the basis of an external data processing signal, as presented in the environment of claims 1, 9, 11, and 19. It is noted that the closest prior art, Koizumi et al., shows controlling a disk drive to rotate more slowly during a lower noise mode. However, Koizumi et al. fails to disclose controlling the disk drive during a lower noise mode to rotate at a data processing speed which is faster than the minimum speed and slower than the maximum speed, on the basis of an external data processing signal, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James L. Habermehl whose telephone number is (571)272-7556. The examiner can normally be reached on 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa Nguyen can be reached on (571)272-7579. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
